Step 2: Schedule Your Lessons

Once enrolled in our program, we will process your permit at NJ MVC. Next, we will call you to schedule your lessons. A permit can only be obtained by a NJ Licensed Driving School.

Step 3: Complete Your 6 Hours

Our staff will schedule you to begin your 6 hours of behind the wheel driving, with our certified instructors. All lessons will be complete in our driving school vehicles, with dual controlled brakes. Driving schools are required to retain the permit until the student has completed the full 6 hours of instruction.

Step 4: Validate Your Permit

Before you can practice with your parent or guardian, you must validate your permit. If you choose our full service package, we will complete the validation process for you. If you choose our 6 hour package, the following are required for validation, a trip to Lodi or Wayne MVC and bring the following items with you: your permit, original passport or birth certificate and social security card.

Step 5: Schedule Your Road Test

Once your permit is validated, follow the instructions provided to you by our staff or MVC staff to schedule your road test. If you would like to use our services for the road test, be sure to contact us **3-4 months** in advance.
